
1. Run the L2RPT-SIRS 401 *Reasonableness Report*.

2. Choose *All Locations*, *Student Demographic* category, and *All Subtypes* from the dropdown menu.

3. Click on the *Migrant* category for "this year" to generate a list of students whom your district has currently designated as Migrant-eligible.

This data reconciliation process is critical in ensuring that all migrant-eligible students are appropriately identified, provided with the appropriate educational programs and supportive services that best meet their needs, and that these students are accurately coded in SIRS. NYSED is required to submit such data to the United States Department of Education (ED) on the *Migrant* subgroup. Migrant-eligible students must be identified and coded correctly in SIRS to ensure that this data submission is accurate and in compliance with federal regulations.
