Re: LSI-Marzano Focused Teacher Inquiry dated October 4, 2017

Dear Rubric RFQ Team,

Please find /6, ¶ésponses to the questions you provided in your letter dated October 4, 2017 regarding our submission of the Marzano Focused Teacher Evaluation Model as an approved rubric in the state of New York.

Under Education Law §3012-d, all observable components of a selected rubric must be scored on a 1-4 scale. Scores from all
observed components are then weighted based on a formula selected by the district to arrive at an overall score and rating for
the observation category. Please clarify how the submitted rubric can be used by school districts and BOCES consistent with
this statutory requirement.

The Marzano Focused Teacher Evaluation rubric is adapted by combining the 0 and 1 scores. This allows flexibility to use the rubric in states that have 4 or 5-point scale.

2. Each domain of the submitted rubric carries a considerable number of specific attributes of preferred practice that an observer is required to note during an observation. Please clarify the scoring regime that will be utilized by evaluators, including a description
