c) Assess personal employability skills for technical careers and evaluate personal suitability forsuch careers

ILLUSTRATIVE ACTIVITIES BY THEME MODULE

HEALTH, SAFETY, AND WELLNESS

ACCESSIBILITY ORGANIZER

Students design a organizer that can be easily attached to an assistive device. Work with students to identify the uses for the organizer. Uses may include tools, personal care items, or school supplies. Students design the device to be easily attached and removed and so that it does not interfere with the user's mobility. Students should consider additional features that can be included, such as a writing or drawing surface. Students develop a prototype or model of the design. Alternative activities include an organizer front ches, a walker, a motorized shopping cart, or a wheelchair.
