INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees,
Hamden Lubman Charter School

Report on the Financial Statements

We have audited the accompanying financial statements of Hamden Lubman Charter School (the "School"), which comprise the balance sheet as of June 30, 2019 and 2018, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and presenting the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making these assessments, the auditor considers internal control relevant to the school's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the school's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

LINES OF CREDIT

For credit line accounts described below ("Credit Lines"), we figure interest charges ("Interest") by applying the "daily periodic rate" as shown on this statement to the "daily balance" of the Credit Line, including current transactions. To get the daily balance, we begin with the opening credit line balance every day, add new deposits, and subtract payments, minimum fees, and payments earned. To determine interest for a billing cycle, multiply each daily balance by the annual percentage rate, and then add or subtract interest charges for the cycle.

PAYMENTS (Unsecured Line - Consumer Credit) All deposits and other credits made to your checking account will automatically be applied towards payment of any outstanding principal balance on your credit line. You may repay your new balance at any time, in whole or part. However, on the due date of each billing cycle, the minimum installment due will be automatically deducted from your checking account. If the payment that deposits made during the cycle have not satisfied the total amount due, each minimum installment payment will cover only the interest charges and amount past due, plus the regular repayment of the principal based upon the terms contained in your agreement with the Bank (i.e., 1/60th of the unpaid principal balance, with a minimum payment of \$20).

PAYMENTS (Secured Line - Consumer Credit and Business) Each minimum installment will consist of the interest due on the balance plus the regular repayment of principal, based upon the terms contained in your agreement with the Bank (i.e., 1/60th of the unpaid principal balance, with a minimum payment of \$75). The minimum monthly installment payment will be automatically deducted from your checking account on the due date of your billing cycle. You may prepay your new balance at any time. Additional payments may be made at any time. Payment of the minimum monthly installment required to be made on the due date. Amounts paid in excess of the required minimum monthly installment will be credited to the outstanding principal balance on your credit line and will not count towards any minimum monthly installment payment.
