Overall Instructional StrategiesThe Diagnostic information is readily aggregated, manipulated, downloaded, and printed to inform strategies and effective planning at the class, grade, school, custom reporting group, district, or domain-specific level.

RecommendationsResults from the Diagnostic group students with similar skills and deficits, helping teachers more effectively target small and large group instruction or intervention. Prescribed instructional materials are informed by assessment data and include

HOW IS THE SELECTED ASSESSMENT ALREADY BEING INTEGRATED INTO THE CURRICULUM OF THE GRADE LEVEL COURSE? HOW DOES THE SELECTED ASSESSMENT SUPPORT THE DAY-TO-DAY ACADEMIC GOALS OF THE EDUCATOR?

i-Ready can be administered seamlessly in conjunction with regular standards-based classroom instruction, as the assessment is given entirely online and the program automatically scores, analyzes, and reports student results in real-time. Because each student works individually at his or her own pace on the adaptive test, educators administer i-Ready in small groups (e.g., 4-5) or individually (e.g., 1-1) to ensure that all students receive the appropriate level of instruction. i-Ready is used to monitor student progress and to identify students who need additional support. i-Ready is used to track student progress and to identify students who need additional support. i-Ready is used to track student progress and to identify students who need additional support.

Diagnostic 3

Typical Growth

Typical Growth: This represents the annual growth for a student at this grade and is centered on the baseline Diagnostic.

Stretch Growth

Stretch Growth: An ambitious, but attainable, level of annual growth that puts students below the grade level on proficiency.

Mid On Grade Level (616) ● Overall ● Grade 5 (568)

On Grade Level (598) ■ Standard Exceeded Error 47: 12

PLEASE EXPLAIN HOW GROWTH TARGETS FOR EACH ASSESSMENT FOR THE SELECTED ASSESSMENT AND METHOD OF COLLECTING STUDENT LEVEL BASELINE, INCLUDING HOW TARGETS ARE DIFFERENTIATED BASED ON THE INFORMATION PROVIDED BY THE BASELINE DATA. IN PARTICULAR, PLEASE EXPLAIN HOW THE ASSESSMENTS USED FOR STUDENTS WITH PREPAREDNESS FOR THE COURSE GRADE LEVEL IS VARIED

For the 2022–2023 school year, Curriculum Associates is proposing Growth to Proficiency Model of target setting for SLOs. There are two criteria for students to reach in the Growth to Proficiency Model being proposed. If the students meet either criterion, then they are considered to have met the growth requirement. The first criterion is whether a student has a gain score that is within half of the mean standard error of gain of typical growth, based on the placement of their initial assessment during the school year. The second criterion is if the student reaches a placement of mid-grade level or higher at any point during the school year.

First, the typical growth differentiated by starting placement on ~~Di~~agnostics noted. Then, if necessary, a prorating multiplier is used. Finally, to reduce the number of incorrect designations of students who have not demonstrated enough growth because of random error, the target is reduced by one

To be completed by the Copyright Owner/Assessment Representative of the assessment being proposed and, where necessary, the applicant LEA:
