Required Student Performance Subcomponent

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

Each teacher shall have a locally determined Student Learning Objective (SLO) consistent with the goal-setting process determined by the Commissioner.

Student Learning Objectives (SLOs)

For guidance on SLOs, see NYSED SLO Guidance.

SLOs shall be used as the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

MEASURES

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> *Individually attributed results:* scores and ratings will be based on the growth of students in the teacher's course in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher either directly or indirectly contributes to student learning outcomes. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where teachers have an opportunity to collectively impact student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> *Collectively attributed results:* scores and ratings will be based on the growth of all students in a school or program or students across buildings/programs in an LEA who take the applicable assessments in the current school year.

> *Collectively attributed group or team results:* scores and ratings for a group or team of teachers will be based on the growth of students in the group/team of teachers' courses or students in the group/team of teachers' courses across buildings/programs in an LEA in the current school year.

> *Collectively attributed linked results:* scores and ratings will be based on the growth of students enrolled in the teacher's course in the current school year taking assessments in other grades/subjects.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s)**; or

Assessment(s) that are selected from the list of State-approved:

- **third party assessments**; or
- **locally-developed assessments** (district-, BOCES-, or regionally-developed).

SLO Assurances

Please read the assurances below and check each box.

- ☑ Assure that each teacher has an SLO as determined locally in a manner consistent with the goal-setting process determined by the Commissioner.
- ☑ Assure that all student growth targets represent a minimum of one year of expected growth, as determined locally in a manner consistent with the Commissioner's goal-setting process. Such targets may only take the following characteristics into account: poverty, students with disabilities, English language learner status and prior academic history.
- ☑ Assure that all student growth targets shall measure the change in a student's performance between the baseline and the end of the course.
- ☑ Assure that if a teacher's SLO is based on a small 'n' size population and the LEA chooses not to use the HEDI scoring bands listed above, then the teacher's 0-20 score and HEDI rating will be determined using the HEDI scoring bands specified by the Department in SLO Guidance.
- ☑ Assure that processes are in place for the superintendent to monitor SLOs.
- ☑ Assure that the final Student Performance category rating for each teacher will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved Educator Evaluation plan.
- ☑ Assure that for any SLO based, in part, on the New York State grade four science assessment, once the assessment is no longer administered the SLO will utilize only the remaining assessments.

Training Assurance

Please read the assurance below and check the box.

☑ The LEA assures that all evaluators will be properly trained and lead evaluators will be certified on the below elements prior to completing a teacher's evaluation. Note: independent observers and peer observers need only be trained on, at a minimum, elements 1, 2, and 4 below.

Retraining

Approximately how many hours of re-training (annual, periodic, or other frequency) will evaluators receive?

☑ 2-6 hours

Certification of Lead Evaluators

How often are lead evaluators certified?

☑ Annually

Please identify the party responsible for the certification and re-certification of lead evaluators.

☑ Board of Education

Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the observation process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that observations are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.

Please check all that apply.

☑ Data analysis to detect disparities on the part of the evaluators

☑ Periodic comparisons of an evaluator's assessment of the same classroom teacher

☑ Periodic calibration meetings and/or trainings

Teacher Evaluation Assurances

Please read the assurances below and check each box.

- ☑ Assure that the LEA shall compute and provide to the teacher their score and rating for the Student Performance category, if available, and for the Teacher Observation category for the teacher's evaluation, in writing, no later than the last school day of the school year for which the teacher is being measured, but in no case later than September 1 of the school year next following the school year for which the teacher's performance is being measured.
- ☑ Assure that the evaluation system will be used as a significant factor for employment decisions.
- ☑ Assure that teachers will receive timely and constructive feedback as part of the evaluation process.
- ☑ Assure that the following prohibited elements listed in Education Law Section 3012-d(6) are not being used as part of any teacher's evaluation: evidence of student development and performance derived from lesson plans, other artifacts of teacher practice, and student portfolios, except for student portfolios measured by a State-approved rubric where permitted by the Department; use of an instrument for parent or student feedback; use of professional goal-setting as evidence of teacher effectiveness; any locally-developed assessment that has not been approved by the Department; and any growth or achievement target that does not meet the minimum standards as set forth in regulations of the Commissioner. Consistent with Subpart 30-3 of the Rules of the Board of Regents, assure that points shall not be allocated based on any artifacts, unless such artifact constitutes evidence of an otherwise observable rubric subcomponent.

Assessment Assurances

Please read the assurances below and check each box.

- ☑ Assure that the amount of time devoted to traditional standardized assessments that are not specifically required by state or federal law for each classroom or program within a grade level does not exceed, in the aggregate, one percent of the minimum required annual instructional hours for the grade.
- ☑ Assure that individuals with vested interest in the outcome of their assessments are not involved, to the extent practicable, in the scoring of those assessments.

Data Assurances

Please read the assurances below and check each box.

- ☑ Assure that SED will receive accurate teacher and student data, including enrollment and attendance data, and any other student, teacher, school, course, and teacher/student linkage data necessary to comply with regulations, in a format and timeline prescribed by the Commissioner.
- ☑ Assure that the LEA provides an opportunity for every classroom teacher to verify the subjects and/or student rosters assigned to them.
- ☑ Assure that scores for all teachers will be reported to SED for each subcomponent, as well as the overall rating, as per SED requirements.
- ☑ Assure that procedures for ensuring data accuracy and integrity are being utilized.

Required Student Performance Subcomponent

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

Required Student Performance Measures

The required student performance measure for a principal may be either a student learning objective (SLO) or an input model, where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> *Individually attributed results*: scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configuration or across multiple building/programs where the learning activities of one building/program indirectly contribute to student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> *Collectively attributed results*: scores and ratings for the selected principals will be based on the growth of students in an LEA who take the applicable assessments in the current school year.

> *Collectively attributed group or team results*: scores and ratings for a group or team of principals will be based on the growth of students in the group/team of principals' buildings/programs in an LEA in the current school year.

ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- **State assessment(s)**; or

  Assessment(s) that are selected from the list of State-approved:

- **third party assessments**; or
- **locally-developed assessments** (district-, BOCES-, or regionally-developed).

INPUT MODEL

Selection of the Input Model will require:

- a description of the areas of principal practice that will be evaluated;
- a description of how the selected areas of principal practice promote student growth;
- a description of the evidence of student growth and principal practice that will be collected; and
- a description of how the district will use the evidence to differentiate effectiveness resulting in a score from 0 to 20 and ratings of Highly Effective, Effective, Developing, or Ineffective.

Measure Type(s)

Please indicate below which type(s) of measures will be used to evaluate principals. Please check all that apply.

☑ Student Learning Objective (SLO)

Assurances

Please read the assurances below and check each box.

☑ Assure that processes are in place for the superintendent to monitor SLOs and/or input models.

☑ Assure that the final Student Performance category rating for each principal will be determined using the weights and growth parameters specified in Subpart 30-3 of the Rules of the Board of Regents and the approved Educator Evaluation plan.
