Task 2. TEACHERS: Required Student Performance - Student Learning Objectives

---

Page Last Modified: 09/21/2022

**Required Student Performance Subcomponent**

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

Each teacher shall have a locally determined Student Learning Objective (SLO) consistent with the goal-setting process determined by the Commissioner.

**Student Learning Objectives (SLOs)**

For guidance on SLOs, see NYSED SLO Guidance.

SLOs shall be used as the required student performance measure for all teachers. The following must be used as the evidence of student learning within the SLO.

**MEASURES**

SLO measures may be either individually attributed or collectively attributed.

**Individually attributed measures**

An individually attributed SLO is based on the student population of a course for which the teacher directly contributes to student learning outcomes.

> Individually attributed results: scores and ratings will be based on the growth of students in the teacher's course in the current school year.

**Collectively attributed measures**

A collectively attributed SLO is based on a student population across multiple sections of the same course or across multiple courses where more than one teacher directly contributes to student learning outcomes.

Task 6. TEACHERS: Additional Requirements - Training

---

Page Last Modified: 07/11/2022

**Retraining**

Approximately how many hours of re-training (annual, periodic, or other frequency) will evaluators receive?

 2-6 hours**Certification of Lead Evaluators**

How often are lead evaluators certified?

 Annually

Please identify the party responsible for the certification and re-certification of lead evaluators.

 BOCES**Inter-rater Reliability**

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the observation process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that observations are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.

Please check all that apply.

- Data analysis to detect disparities on the part of the evaluators
- Periodic comparisons of an evaluator's assessment of the same classroom teacher
- Periodic calibration meetings and/or trainings

## Task 7. PRINCIPALS: Required Student Performance - Information and Assurances

---

Page Last Modified: 07/11/2022

### Required Student Performance Subcomponent

For guidance on the required subcomponent of the Student Performance category, see NYSED Educator Evaluation Guidance.

100% of the Student Performance category if only the required subcomponent is used or locally determined if the optional subcomponent is selected.

### Required Student Performance Measures

The required student performance measure for a principal may be either a student learning objective (SLO) or an input model, where the principal's overall rating shall be determined based on evidence of principal practice that promotes student growth related to the Leadership Standards.

#### STUDENT LEARNING OBJECTIVES

For guidance on SLOs, see NYSED SLO Guidance.

SLO measures may be either individually attributed or collectively attributed.

#### Individually attributed measures

An individually attributed SLO is based on the learning outcomes of a student population within the principal's building or program.

> Individually attributed results: scores and ratings will be based on the growth of students in the principal's building/program in the current school year.

#### Collectively attributed measures

A collectively attributed SLO is based on a student population across multiple buildings/programs of similar grade configuration or across multiple building/programs where the learning activities of one building/program indirectly contribute to student learning outcomes in another building/program. When determining whether to use a collectively attributed SLO, the LEA should consider:

- identifying which measures and assessments could be used to encourage partnerships or teams where there is an opportunity for a collective impact on student learning;
- identifying which assessments could be used to help foster and support the LEA's focus on a specific priority area(s);
- the impact on the LEA's ability to make strong and equitable inferences regarding an individual educator's effectiveness; and
- when using multiple measures, the appropriate weight of each measure that reflects individually and collectively attributed results.

> Collectively attributed results: scores and ratings for the selected principals will be based on the growth of students in an LEA who take the applicable assessments in the current school year.

> Collectively attributed group or team results: scores and ratings for a group or team of principals will be based on the growth of students in the group/team of principals' buildings/programs in an LEA in the current school year.

#### ASSESSMENTS

Any of the measures above may be used with one or more of the following assessment types.

- State assessment(s)  
Assessment(s) that are selected from the list of State-approved:
- third party assessments; or
- locally-developed assessments (district-, BOCES-, or regionally-developed).

#### INPUT MODEL

Selection of the Input Model will require:

Task 7. PRINCIPALS: Required Student Performance - Information and Assurances

---

Page Last Modified: 07/11/2022

- a description of the areas of principal practice that will be evaluated;
- a description of how the selected areas of principal practice promote student growth;
- a description of the evidence of student growth and principal practice that will be collected; and
- a description of how the district will use the evidence to differentiate effectiveness resulting in a score from 0 to 20 and ratings of Highly Effective, Effective, Developing, or Ineffective.
