Inter-rater Reliability

Inter-rater reliability refers to the extent to which different evaluators produce similar ratings in judging the same abilities or characteristics in the same target person or object. Within the context of educator evaluation, inter-rater reliability requires all evaluators trained in the school visit process to reach independent consensus on observable behaviors to ensure the accuracy, consistency, and precision of the implementation of the chosen evaluation rubric(s). It also requires administrators to analyze and track educator evaluation data and ensure that school visits are being completed with fidelity.

Select the option(s) below that best describe the process in place for maintaining inter-rater reliability.
