VACCINATION REQUIREMENTS APPLICABLE TO ALL STUDENTS

Athletics

4. When are schools required to assess compliance with the immunization requirements for students participating in interscholastic athletics that begin in the summer?

A

Home, Hospital, and Institutional Instruction and Homeschooling

5. Does this apply to students who are receiving home, hospital, or institutional (formerly homebound) instruction, under _____

A Home, hospital, and institutional

6. If I provide homeschooling for my child, will he or she be allowed to attend State tests (e.g., 3-8 State assessments, Regent's examinations) held at the school if he/she is not immunized?

A

7. May groups of parents provide homeschooling collectively by engaging the services of a tutor to provide group instruction to their children?

A

8. Can a homeschooled student who is not immunized audit or intermittently attend some classes at a nonpublic school without the required immunizations?

A.

Transportation

9. Can students who are not immunized and do not have a valid medical exemption be transported using school transportation with other students?

A.

10. If a school district provides bus transportation to students attending another school (i.e., a nonpublic school), is the school district that provides the bus transportation responsible for ensuring that the students from other schools have all their required immunizations?

A

Special Education

11. Are students with disabilities who have not been immunized entitled to special education services?

A

12. Is it considered a change in placement when a student with a disability, who previously attended public school under a non-medical exemption from vaccination requirements, is now being homeschooled because the student does not meet vaccination requirements under State law?

A

18. What options do parents have if they disagree with the recommendations on an IESP?

A.

19. Can parents of homeschooled children choose which services they want their child to receive, or must parents accept all or none of the services recommended on an IESP?

A.

Preschool Students with Disabilities

20. If a parent chooses not to immunize a preschool child, does this impact the preschool special education services that the child may receive?

A.

21. What options do parents have if they disagree with the recommendations on an IEP?

A.
